EDUCATION

University Institute of Technology, BU

B.E in Information Technology

August 2018 – July 2022

EXPERIENCE

Lead Python Developer

June 2023 – Present

SoftEdge InfoTech Private Limited

- Led the development and deployment of the QLAN social media app, managing the full software lifecycle.
- Designed and maintained REST and GraphQL APIs using FastAPI, Flask, and Express.js with PostgreSQL and MongoDB.
- Managed CI/CD pipelines for seamless deployment and automated testing on AWS.
- Designed microservices architecture for scalable applications.

Jr. Software Engineer

June 2022 – June 2023

Trellissoft, Inc.

- Worked on a Blockchain-backed Invoice Financing project used by Facebook(Meta).
- Integrated third-party financial services like Codat and PPSR.
- Developed a Bill Payment Microservices project using Flask and PostgreSQL.
- Integrated Nuvei payment gateway and implemented custom admin panels.

Python Intern

January 2022 – June 2022

Signimus Technologies

- Developed a Exam Proctoring System using WebSocket, WebRTC and AWS Rekognition.
- Designed and implemented backend services with Django and Django Channels.

PROJECTS

Social Media App (QLAN)

June 2023 – Present

- Led the development of the entire microservice architecture with FastAPI, Flask, and Express.js .
- Designed and maintained REST and GraphQL APIs for Web and Android app.
- Managed development, deployment, and CI/CD processes.
- Developed core features like feed, coins, and notifications.
- Utilized PostgreSQL, MongoDB, and Redis for data storage.
- Integrated Apache Solr for fast and efficient searching.
- Implemented Firebase FCM for real-time push notifications.
- Leveraged Kafka for video transcoding to optimize playback for various network conditions.
- Deployed and managed services on AWS.

Blockchain-backed Invoice Financing

June 2022 – May 2023

- Developed a monolithic, multi-tenant fintech platform used by **Facebook(Meta)** for invoice financing.
- Enabled white-labeling of the product, allowing businesses to configure branding and functionality.
- Built an advanced admin panel allowing configuration of themes, terms conditions, payment gateways, and platform rules.
- Integrated third-party financial services like Codat and PPSR.
- Worked with Django, PostgreSQL, Redis, Celery, and AWS for high availability and scalability.
- Integrated Western Union payment gateway for global transactions.

Exam Proctoring System

January 2022 – June 2022

- Designed an exam proctoring system that can be seamlessly integrated into the iframe of any online exam platform.
- Implemented WebRTC to capture user video stream.
- Used Django, Django Channels(WebSocket), AWS Rekognition, and AWS S3.

TECHNICAL SKILLS

Languages: Python, JavaScript, C/C++

Frameworks: Flask, FastAPI, Django, ExpressJS, Celery, Kafka, Pytest, Selenium

Databases: PostgreSQL, MongoDB, MySQL, Redis, Apache Solr

Web Services: REST API, GraphQL API, WebSocket, Firebase, Git

DevOps/Cloud: AWS (S3, EC2, RDS, Lambda, API Gateway, ECS, Fargate, ECR), Docker, Load Balancer, Nginx, CI/CD Pipelines, GitHub Actions
